Today, Banvit is pleased to be among Türkiye's leading food companies, providing daily service to its customers with a broad product portfolio. In addition to the Banvit master brand, we continue to serve different customer segments and needs through our sub-brands.

While implementing new initiatives with the vision of strengthening our pioneering position in the sector, we act in line with our mission to creatively, qualitatively, and deliciously meet consumer and customer expectations; to contribute to providing reliable animal protein produced under hygienic conditions that meet nutritional needs; and to remain sensitive to environmental sustainability, animal welfare, and employee well-being.
